

The logo consists of a blue circular graphic made of curved lines, resembling a stylized sun or a fan, positioned to the left of the word "Apprenticeships".

Apprenticeships

The Higher and Degree Vacancy Listing

The higher and degree apprenticeship listing showcases hundreds of vacancies from a variety of employers starting in 2022 and 2023. The variety of vacancies listed range from Nuclear Scientist to Nursing Associate – there's something for everyone.

Please note, this booklet only contains a selection of current higher and degree apprenticeship vacancies. For the full range of live vacancies, please visit the government website, Find an apprenticeship <https://www.gov.uk/apply-apprenticeship>

What is a higher and degree apprenticeship?

Higher apprenticeships include qualifications at level 4 and above. They can be suitable for those looking to progress from level 3 qualifications, including advanced apprenticeships and T Levels. Degree apprenticeships are offered by universities and other higher education providers. They contain either a full degree or degree-level qualification and go up to master's level (which is post-graduate).

Why aren't level 2 and level 3 opportunities included in this guide?

This listing is to promote higher and degree apprenticeship vacancies across England, therefore only levels 4 – 7 are included.

What does competitive mean?

Some employers cannot include their salary range for their vacancies and therefore use the word 'competitive'.

Competitive salaries mean that the vacancy that is being offered is equal to or more than the industry average for similar positions in the same location. To look up salaries in particular fields, please visit the National Careers Service website where you can search job profiles. Within each profile, an indicative salary range is given as well as lots of other useful information about the types of tasks you might expect to undertake and progression opportunities:

<https://nationalcareers.service.gov.uk/explore-careers>

Can I apply for an apprenticeship and also to full-time higher education at the same time?

Yes. You can apply for any of these apprenticeships and a full-time place at university at the same time.

What support is available?

The National Careers Service provide careers information, advice and guidance. They can help you to make decisions on learning, training and work at all stages in your career. This service is available to people who live in England, please visit <https://nationalcareers.service.gov.uk>

You can also telephone 0800 100 900 or participate in a Web Chat with an adviser through the website address listed above.

Free Resources

There are a number of free resources available to help you to explore apprenticeships further.

For further information about apprenticeships, please visit www.apprenticeships.gov.uk
